## **MASTER YOUR MONEY MANAGEMENT**

Money is not an external, uncontrollable force.

It's the **currency of energy** that you have the power to **manage and master**.

Managing your money requires you to be **active and intentional**, rather than to passively witness money coming in and going straight back out.

This requires **planning, management** and having **monetary structures** in place.

## PROSPERITY PLAN

Success is different for everyone so it is important to know what that is for you so you do not end up living someone else's version. Your success will depend on your goals as a player and a person. Therefore having a prosperity plan is essential.

*A **prosperity plan** is an individual's personal purposeful plan to create prosperity in their life.*

Let's get into creating yours.

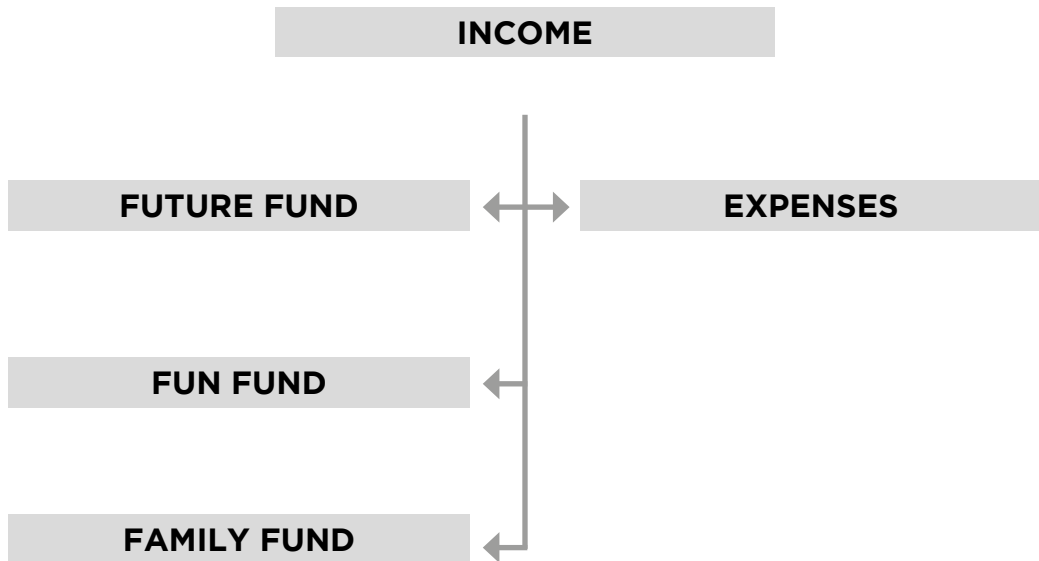

STEP 1	STEP 1	STEP 3
MY TOP 5 VALUES	What would you like to do to live out this value?	What do you desire to have according to these values?

Now you have created your prosperity plan you can put a financial figure to them and set goals to achieve them.

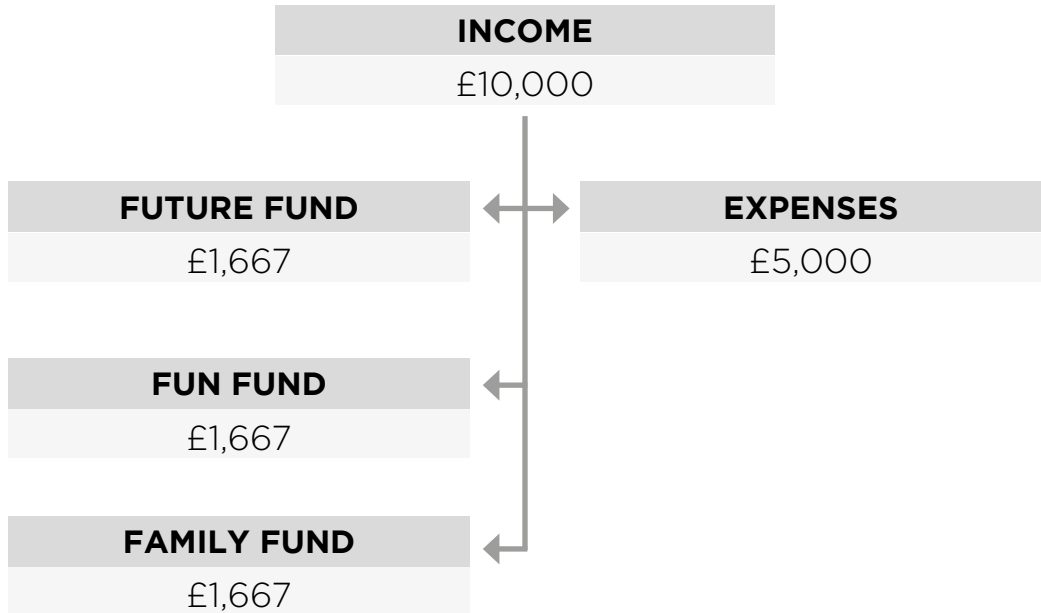

## **FINDING FINANCIAL FLOW**

Now you have been made aware of money flowers where it has places to go, use the template below to plan out your financial flow plan.

### **MY FINANCIAL FLOW**
